

Paula,

Thank you so much for the incredible photos you took at our wedding day. I am usually the one behind the camera, and was sure it would be awkward being photographed by someone I barely knew! From our first meeting I knew that we were in good hands. Your enthusiasm, professionalism and dedication blew me away! From the design of the website, the invites and the photography nothing could have been better.

Having worked with photographers in my career I have yet to meet someone with such obvious passion for what she does !  
Your photos are truly stunning, after all ... once the wedding day is over one only have the memories and photos.

Not once did I have to worry about your role in our big day. You made me feel at ease and it didn't feel awkward at all.

Everyone one just loves our photos, and I am so glad that our paths crossed with yours. You are in my mind one of the best photographers in the country, and we had difficulty choosing our favourite photos - they are all just great !

I will recommend your services to anyone and everyone! That said - please feel free to offer my contact information to brides-to-be who is interested in using you as a wedding day photographer. (My contact information : [mellischag@gmail.com](mailto:mellischag@gmail.com) or +971 502 486 137)

Once again, thank you for capturing my most beautiful day perfectly !

Keep on working your magic !

Regards,  
Mellischa Rautenbach
