**Re: Thank you for Wedding Photography**

Dear Paula,

Our wedding was such an intimate, precious day and we knew from the start that it was going to take a very special photographer to capture our memories. After the music has stopped, the wedding cake gone, and the flowers dried out, all you have left is the photographs. When we look at our pictures, we do more than just remember the day, we relive it, moment by moment. You truly captured the essence of our wedding day.

You have an incredible energy, talent and personality and we will treasure our photo memories for the rest of our lives. Your photojournalistic style captured every smile, emotion, and every expression of happiness. You caught us at our funniest, and at our most human.

We love you - not only for the professional job you do, but for for the special contribution you made to the spirit of it all. It would be an honour if you would agree to capture our life's treasures in the years to come, from now until the Autumn of our lives.

We will highly recommend you to anyone who is in need of an incredible photographer, not just for one occasion, but for life.

It is from the bottom of our hearts that we thank you.

“Appreciation is a wonderful thing: It makes what is excellent in others belong to us as well.” - Voltaire

Sincerely yours,

Tarryn & Kevin Godley

(Married 18 April 2009, Oudsthoorn)
